Department Description

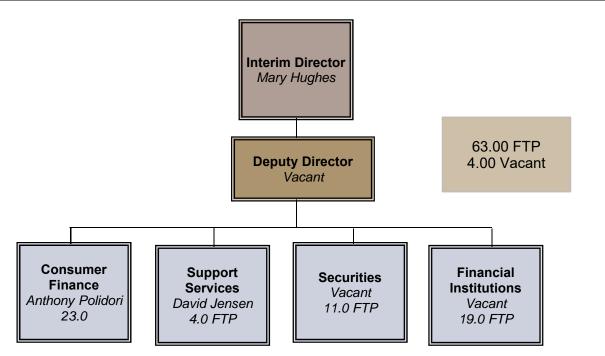

Originally created by the State Legislature in 1905, the Department of Finance is a regulatory agency charged with the supervision and oversight of state-chartered financial institutions, regulated lenders, securities issuers, broker-dealers and stockbrokers, residential mortgage brokers and lenders, investment advisers and sales personnel, collection agencies, endowed care cemeteries, and others.

The mission of the department is to aggressively promote access to vigorous, healthy, and comprehensive financial services for Idaho citizens. This is accomplished through prudent and efficient oversight of financial institutions, investment opportunities, and credit transactions. Through administration of laws enacted by the Idaho Legislature, legitimate financial transactions are encouraged, while fraud, unsafe practices, and unlawful conduct are detected and appropriate enforcement action is taken. The department administers and enforces 23 regulatory statutes and is funded entirely by fees levied by law on the industries subject to its supervision.

1. Money Services Business Examiners

The Department of Finance requests two money services business examiner/investigator positions. The request includes 2.00 FTP, \$201,700 in personnel costs, \$4,000 in operating expenditures, and \$4,000 in onetime capital outlay for a total of \$209,700 from the State Regulatory Fund. Approval of these positions will bring the total number of financial examiners for money service business examiners to three. Money service businesses are nonbank entities that do not accept deposits or make loans like traditional financial institutions. Rather, they provide alternative mechanisms for persons to make payments or to obtain currency or cash in exchange for payment instruments. Examples of these businesses are PayPal and Venmo, or businesses using crypto-currency.

The number of money transmitter licensees and agents has more than doubled in the five years since the Money Transmitters Act, found in Section 26-2901, Idaho Code, was passed. The actual increase has gone from an initial 1,967 licensees and agents to 3,084 at the end of FY 2019. The department goal of examining 20% of agents every year has been met by using financial examiners from other bureaus in the department. This request reflects the priorities of the department to meet demand in high growth areas.

The request is to fund positions at 100% of policy for financial examiner 3 (\$34.37 per hour), but the department will try to hire at 80% of policy for financial examiner 1 (\$26.93 per hour). This gap in the budget will stay consistent with other financial examiners in the department which will allow for raises as the employee progresses through examiner tests.

2. Building and Construction Costs

The Department of Finance requests \$1,800,000, onetime, in operating expenditures to build-out the space it plans to occupy at the Chinden Campus. The Legislature provided an appropriation of \$385,000 for moving costs to the Chinden Campus in FY 2020. However, the space the department planned to occupy is no longer available and requires the agency to build walls for offices and conference rooms. As a consequence, the department will no longer be able to move in FY 2020 and will need to occupy the new space at the Chinden Campus by the end of FY 2021.

In addition to this request, the department paid \$800,000 for a pre-bill to the Department of Public Works (DPW) from its FY 2019 appropriation to be applied to its anticipated remodeling costs in FY 2021. The department is currently working with DPW to plan improvements to the space that would be needed prior to the move-in to accommodate its staff. In total, the department expects the remodel to cost roughly \$2.8 million. In addition to the pre-bill and \$1.8 million from this request, the department plans to use another \$200,000 of existing appropriation for the remodel. Cost estimates for construction are based on \$150/square foot, and the total area the department plans to occupy is 18.625 square feet.

3. Mortgage Financial Examiner

This request from the Department of Finance includes 1.00 FTP, \$100,800 in personnel costs, \$4,000 in operating expenditures, and \$2,000 in capital outlay for a financial examiner/investigator in the mortgage program. The position will provide regulatory oversight of mortgage loan originators, and mortgage broker/lenders. The request is to fund the position at 100% of policy for financial examiner 3 (\$34.37 per hour), but the department will try to hire at 80% of policy for financial examiner 1 (\$26.93 per hour). This gap in the budget will stay consistent with other financial examiners in the department which will allow for raises as the employee progresses through examiner tests. The request in operating expenditures is for travel and training, while capital outlay is for office equipment including a desk, computer, and chair.

The examiner's duties will include license application review, license maintenance and amendment filings, license renewals, examinations, complaint processing, and investigations. According to the department, the resources and staff in the mortgage program are stretched to capacity and additional resources are needed to meet department goals of conducting examinations of 20% of its corporate licensees per year, which is 78 examinations; renew and process over 6,500 licensing requests per year; and process over 1,400 new mortgage loan originator license requests, among other duties.

Performance Measure Explanatory Notes

* Investment Adviser exam scheduling sometimes weighted to later part of calendar year – exams were completed, or will be completed, by end of calendar year.

For the FY22 Budget, we may change a few of these metrics due to nationwide accreditation standards and other industry changes; at that time we will provide 4 years of data for the new metrics from FY17 to FY20.
